

RESIGNATION STATEMENTS FROM DIRECTORS AT CITY QUAY

It is with regret that I join with other Directors in resigning, both as Secretary of the Board and as a Director. I found most of the five years I have served to be a very positive and rewarding experience. Gerry Proctor and Lyndsey Colligan, the Chair and Vice-Chair of the Board, have been unfailingly supportive, as has Olivia Smith, our more recent colleague, while the professional advice of Wren has been exemplary. Recently, however, there have been attempts by new Directors to undermine and disrupt the work of the Board and their behaviour has become intolerable. Particularly unpalatable has been their treatment of the Chair, Gerry Proctor, who has worked unstintingly for City Quay for many years. Residents owe a great deal to Gerry and I fear for the future of the development without his leadership. **Charlotte Bretherton**

I regret to inform you that I am resigning with immediate effect as Deputy Chair therefore current Acting Chair and as a Director of City Quay Management Company. The amount of venom directed at the Board and Wren on Monday was astonishing, in particular a member of the board asking for the Chair, who has worked tirelessly and continuously for the estate, to be "rotated" and a family member of another board member who has dined as a guest at her house voting against Charlotte's re-election, this absolutely disgusted me. Bad manners and unprofessionalism is too weak a criticism for their behaviour. I would also like to apologise to Wren for their behaviour. Their determined efforts to stage a coup which is reflected in their decision to call a meeting without consulting existing board members prior and in particular deputy chair/acting chair is appalling.

I would like to take this opportunity to thank Gerry, Charlotte and Olivia for their dedication, friendship, hard work and commitment and Wren for their professionalism and support. **Lyndsey Colligan**

I regret to inform you I am resigning from my position as Director of CQMC with immediate effect. It has become clear the ethos of the board of directors has changed somewhat of late and it feels only right that I resign now and hand over to the new board. I would like to thank Wren for their incredibly valuable and professional help, support to the board and to City Quay development. I would also like to thank Gerry, Charlotte and Lyndsey for all their years of hard work and determination to make City Quay the beautiful place it is to live today not to mention the valued friendships we have formed. **Olivia Smith**
