

MAKING LIVERPOOL BETTER TOGETHER

2022 SEMINAR SERIES

This feels like the right moment in our history to face the perceived crisis both locally and nationally with creative civic imagination. Our society, if it is not to deteriorate, must become more open, accountable and citizen-led. This seminar series will bring to Liverpool some of the very best international and national examples of a growing citizen movement to improve the places where people live by empowering residents. Our final seminar will be a workshop exploring practical next steps in Making Liverpool Better, Together!
